

## Tunturi Weight Bench WB50 (17TSWB5000)

The Tunturi weight bench WB50 is a stable weight bench for intensive strength and muscle training. The bench comes with a separate squat rack. The inner profiles in the rack are individually adjustable. The bench is suitable for conventional as well as for Olympic weight plates. Flexibility in training is offered by the different positions of the backrest - 6 different settings for military, inclined and flat position are possible, so that the training can be done individually. A biceps curl pad is also integrated into the bench and is height adjustable. The weight bench is rounded off with the leg section, which is equipped with profiled foam roller padding and allows leg extension and leg bending exercises.

**CHF 490.00**
