

Fitwood cushion KAURA

The KAURA cushion is designed for the climbing arch LUOTO of FitWood when it is turned upside down and used as a seesaw. The cushion is soft and puffy and makes rocking a comfortable and soothing experience.

CHF 149.00

The cushion has six cells filled with soft, 100% recycled EcoSuperSoft filling to maximize comfort. In each corner of the pillow are straps that secure the pillow to the arch to prevent it from slipping out of the arch when you climb.

The KAURA pillow is made of 97% recycled fabric (84% recycled cotton, 13% recycled polyester and 3% cotton - Standard 100 by Oeko-tex) and is made with 60% recycled polyester and 40% foam chips (may contain individual down).

KAURA pillows are designed and manufactured in Finland. They are designed to support an active lifestyle without compromising on design or sustainability.

The KAURA pillow can be washed at 40°C on the gentle cycle.

Dimensions: W55 x D13,5 x H150cm

Weight: 2,3kg
