

## Impulse Fitness Seated Chest Press (IFP1201)

The new Impulse IFP range of fitness equipment with single stations for discs is specially designed for economic use in small fitness clubs, hotels, clubs and the like. These machines are characterized by functionality, easy maintenance and original design. They are designed to ensure comfortable strengthening while saving space.

**CHF 849.00**

### Equipment:

- seated chest press for strengthening the upper half of the body, especially the pectoral muscles, biceps/triceps and abdominal muscle groups.
- converging motion sequence
- stable, high-quality steel construction
- disc supports for 51mm discs
- certified according to EN-20957-1 (class S) - for professional use
- height adjustable seat
- for user sizes from 155-195cm
- comfortable padding with high density
- patented and ergonomic design with urethane coated handles
- with high-strength barbell tube protective cover made of technical plastic
- the rubber strap hook (connection point) can be used to meet the requirements of gradual resistance training. The elastic belt can be used to optimize the force line, and the user will not feel any loss of force in the back area.
- the double powder coating technology of the sandblasted metal frame greatly improves the adhesion of the metal to the paint and provides a high quality and abrasion resistant coating

Use: home use to light commercial use, payload disc support: approx. 2 x 100kg, payload user: approx. 150kg

Equipment dimensions: L128x W99 x H125cm, weight 64,2kg

Option: discs

Warranty: 2 years on labor and spare parts (excluding consumables)
