

## Impulse Fitness Standing Chest Fly (IFP1206)

The new Impulse IFP range of fitness equipment with single stations for discs is specially designed for economic use in small fitness clubs, hotels, clubs and the like. These machines are characterized by functionality, easy maintenance and original design. They are designed to ensure comfortable strengthening while saving space.

**CHF 899.00**

### Equipment:

- the Standing Chest Fly is a great piece of equipment for exercising and strengthening the chest muscles in a standing position
- sturdy, high quality steel construction
- disc supports for 51mm discs
- certified according to EN-20957-1 (class S) - for professional use
- tested for more than 300'000 repetitions
- large tread surface with non-slip surface supports good stability
- for user heights from 155-195cm
- versatile handle allows for different spans
- patented and ergonomic design with urethane coating on the handles
- with high-strength barbell tube protective cover made of technical plastic
- the height of the turning point corresponds to the height of the user's shoulder, which provides the user with a more comfortable experience and precise stimulation of muscle groups
- the double powder coating technology of the sandblasted metal frame significantly improves the adhesion of the metal to the paint, providing a high quality and abrasion resistant coating
