

Impulse Fitness Leverage Squat/Calf (IFP1707)

The new Impulse IFP range of fitness equipment with single stations for discs is specially designed for economic use in small fitness clubs, hotels, clubs and the like. These machines are characterized by functionality, easy maintenance and original design. They are designed to ensure comfortable strengthening while saving space.

CHF 1'249.00

Equipment:

- the Leverage Squat/Calf is a versatile exercise machine that focuses specifically on squats, calves and lower back training
- sturdy, high-quality steel construction
- strong and ergonomically designed shoulder pads for maximum comfort - the rounded corner of the shoulder pad is more ergonomic and provides a better fit for the user's shoulder
- double angle shoulder pads prevent the user's shoulders from slipping on the shoulder pads
- the launch height can be adjusted to the needs of different users
- the starting handle is adjusted to the spring to spring back automatically. after the user starts the grip, the support structure in the middle automatically springs back and stays in the controllable area of the user's hand
- disc supports for 51mm discs
- certified according to EN-20957-1 (class S) - for professional use
- for user sizes from 155-195cm
- non-slip footplate with optimal inclination
- patented and ergonomic design with urethane coating on the handles
- with high-strength barbell tube protective cover made of technical plastic
- 2 disc supports (50mm) for storing the weight discs (loading capacity per disc support approx. 100kg)
- the double powder coating technology of the sandblasted metal frame significantly improves the adhesion of the metal to the paint and provides a high quality and abrasion resistant coating

Use: home use to light commercial use, load capacity disc support: approx. 2 x 175kg (total 350kg), load capacity storage: 2 x approx. 100kg, load capacity user: approx. 150kg
