

NOHrD Squat Rack Oak

Patented technology for a sophisticated workout in timeless elegance - NOHrD's SquatRack features a unique design with a solid wood frame consisting of two slim columns that can be pulled out or folded in with absolute ease. This innovative, space-saving design allows the distance to be adjusted to the length of the hand. The folding and securing mechanisms are designed to adjust easily and smoothly with your fingertips, ensuring a seamless and hassle-free workout experience. NOHrD's SquatRack is absolutely unique, combining simplicity and aesthetics in a perfect fusion of wood and stainless steel. This exceptional barbell training equipment fascinates with its simple elegance and becomes a design highlight in any gym or interior.

The design

The NOHRD SquatRack impresses with its distinctive look. The secret lies in the two slim wooden columns. With absolute ease, the rack can be pulled out of the columns. This transforms the SquatRack into a robust training platform that offers all the freedom needed for barbell training.

Training with the barbell

With the NOHRD SquatRack, you don't just get your muscles in shape. This fitness equipment combines sophisticated training with timeless elegance. An aesthetic statement in all respects - fitness equipment that inspires!

Space-saving

Thanks to the patented mechanism, the SquatRack by NOHrD can be completely folded in and out. With absolute ease, the rack can be pulled out of the columns. This transforms the SquatRack into a robust training platform that offers all the freedom needed for barbell training.

Load capacity

The barbell racks can bear loads of up to 200kg and are variably adjustable in height.
