

## NOHrD barbell bar 160cm, 25mm with SlideLock™ system from Gungnir

Barbell bars 25mm from NOHrD with SlideLock™ system from Gungnir of Norway. The exclusive SlideLock technology is based on a titanium slider with a magnetic core. With a minimal lift, the slider can be moved smoothly on the barbell and locked in the desired position.

**CHF 349.00**

- available in length 160cm
- 160cm rod with inner dimension 120cm and 20cm for target support
- Diameter 25mm
- SlideLock™ system from Gungnir - integrated slide lock for easy and secure fixing of the weight plates on the bar - the exclusive SlideLock technology is based on a titanium slider with a magnetic core. With a minimal lift, the slider can be moved smoothly on the barbell bar and locked in the desired position
- Scope of delivery 1 barbell bar
- Weight: 6kg (160cm)
- Compatible with weight plates with 25mm hole diameter. The use of plates with larger holes can damage or bend the lock or the sleeves. The plate hole diameter should not be larger than 26.5mm. If you already have plates, we recommend that you measure the center diameter before purchasing to ensure that the plates fit well
