- Without gelatine
- Without aspartame
- Nutritional values per serving 0.9g carbohydrates

Low fat, low sugar, low calories - the ingredients of All Stars Flavor Powder:

The main ingredient of the powder is inulin, a natural vegetable fibre that is found in chicory, Jerusalem artichokes and parsnips, among others, and can be extracted from them. The various flavors are sweetened exclusively with sucralose (aspartame-free), contain flavors and, depending on the flavor, delicious chocolate chunks or dried strawberry pieces.

Each 3g powder (1 scoop) contains a maximum of 0.2g fat and a maximum of 0.4g sugar. No sugar is added in addition to the sweetener. Due to the low amounts of fat and sugar, one portion contains less than 10 calories. The 240g can provides 80 portions.

What is inulin?

Inulin is a polysaccharide and fructose building block and is a purely plant-based dietary fiber. 100% vegan, gluten-free and lactose-free, inulin is used in food production as an additive, e.g. in low-fat yoghurt. As a dietary fiber, it has a digestive effect. A powder consisting of inulin is very soluble in water and neutral in taste, so it can be added to numerous products and can also be used in cooking and baking. Inulin is the perfect basis for a flavor powder.

Flavor Powder - for whom and why?

The Flavor Powder in the three delicious flavors White Chocolate Strawberry, Milky Chocolate & Chunks and White Chocolate & Chunks provides a variety of low-calorie, tasty variety and additional creaminess, especially in low-fat products. The powder also increases the fiber content and can be added perfectly to neutral-tasting dairy products, morning muesli or protein shakes. Flavor Powder can also be used in baking as a low-calorie addition to flour to add flavour and sweetness. It is often used in diet phases to reduce the fat and sugar content of the normal diet, but can also be integrated into all other eating habits and provide flavor variety. ALL STARS Flavor Powder - the delicious taste for your meal. Just try it out and see for yourself.
