

## Fluid Rower Touch Heart Rate Handle

Touch Heart Rate Handle to Fluid Rower -  
for fast and accurate measurement.

CHF 199.00

If you want a fast and accurate measurement of your heart rate, install this unique, ergonomically designed, high-quality handle to your Fluid Rower machine.

The invisible heart rate sensors are integrated directly into the handle. The handle connects to your Fluid Rower's monitor via Bluetooth.

Ideal if you don't have a smartwatch or don't want to train with a chest strap. The handle can be installed on all Fluid Rower devices with Bluetooth monitor - **compatible with all Fluid Rower V and XL models.**
