

## Hoist Fitness Dual Angle Smith (CF-3755)

The CF-3755 Dual Angle Smith from Hoist Fitness - a game changer in commercial fitness equipment. This Smith machine redefines mounting versatility, offering the **choice of a traditional vertical orientation or a dynamic 7-degree angle**. The CF-3755 features TPU rack outs for increased durability and a quieter workout experience. Assembly is simplified by the ability to flip the columns, allowing for four different configurations to accommodate different workout preferences. The safety stop mechanism is designed for effortless use - swing it out or in, slide it vertically to the desired position and seamlessly swing it back into place on top of the rack-out. Experience innovation and customization in one with the CF-3755 Dual Angle Smith and set a new standard in commercial fitness equipment. Upgrade your gym with this powerhouse that combines flexibility, durability and user-friendly safety features.

**CHF 4'990.00**

Combining European styling and American engineering, HOIST FITNESS takes commercial free weight equipment to a whole new level. The new CF Premium Line has the same aesthetic features and durable construction as the popular HOIST ROC-IT line.

### **Equipment:**

- during the mounting process, the Dual Angle Smith can be configured in either a vertical orientation or with a 7-degree angle
- EZ-LOC LATCHING MECHANISM automatically locks and unlocks barbell bar and safety stops
- Simple one-handed adjustable safety stops
- barbell guide with ball bearings for almost resistance-free movement
- polyurethane-covered barbell rests to protect the frame and reduce noise
- during assembly, the columns of the CF-3755 can be flipped to position the rack outlets to the

rear, providing four setup options. This flexibility allows customers to choose their preferred orientation for engaging/disengaging the bars in the rack outs.

- the safety stop mechanism has been optimized for simplicity. Users can swivel it outwards or inwards, slide it vertically into the desired position and then swivel it back into place on top of the rack-out
- 12 options for attaching the barbell rack to the rack
- Starting weight/own weight of the Olympic barbell bar 11kg
- 12 integrated barbell racks for storing weight plates that are not in use
- Weight plates not included in the scope of delivery

Use: Home to commercial continuous use, maximum payload training weight 245kg, maximum weight for storage 612kg

Equipment dimensions: L132 x W223 x H226cm, weight 277kg

Options: Weight plates, barbell bar

Frame colors: platinum, white, black matt

Upholstery colors: light grey, dark grey, black, red, blue (other colors on request)

Warranty: 2 years on labor and spare parts (excluding consumables such as upholstery, ropes)
