WHEN TO TAKE

- Ideal in everyday life or on the go, as an alternative for a sweet craving or as an additional source of protein during training.

WHAT IS THIS PRODUCT FOR?

Protein bars are ideal for providing protein between meals or on the go and are a high-quality alternative to "snacking" on chocolate or other sweets. ALL STARS bars are available in many different sizes. All bars are made from high-quality protein sources. The protein content is between 28% and 50%, depending on the type of bar.

DESCRIPTION

The new Protein Bar - super soft & fluffy provides you with 11 g of protein per 50 g bar, in a combination of whole milk powder and milk protein, and around 6 g of fiber. Sweetened with maltitol, a sugar substitute, no other sugar has been added. Around 2 g is naturally contained in the ingredients. With less than 200kcal, the bar is significantly lower in calories than a classic chocolate bar from the supermarket shelf, but the milk chocolate coating and pleasant consistency make it not only a real visual alternative, but also a clear nutritional advantage. Ideal in everyday life or on the go as a small source of protein, as an alternative to a sweet snack or as an additional source of protein during training.

Packaging unit: 12 bars of 50g each
