

Steelflex Dual Squat/Dead Lift (PL2300-BR)

The Steelflex Dual Plate Loaded Squat/Deadlift is made from a robust 11-gauge oval steel tube that offers excellent strength with a modern design. The frame is protected with a high-quality powder coating that resists scratches, wear and tear and sweat. This dual-purpose squat and deadlift machine is suitable for use in home to commercial environments such as weight rooms in high schools, college fitness facilities, training studios, military and commercial fitness centers and more. The Steelflex PL2300 Squat/Dead Lift provides squat and deadlift training to develop explosive body strength. The adjustment option of the lever movement arm adapts the user to different body sizes. Both the straight and curved handle design allows exercisers to operate the independent lifting arm more comfortably.

CHF 2'490.00

Features:

- The Steelflex Plate Load PL2300 squat/dead lift machine is ideal for training the leg, arm, shoulder and back muscles.
- Adjustment option for the lever movement arm adapts the user to different body sizes
