- Taste optimized
- + 25% stronger viking!
- Nitric Oxide Pump Complex: Arginine + Creatine
- BCAAs: Leucine, Valine, Isoleucine
- Trimethylxanthine/Caffeine + 2-Stage Carb Complex

Directions

Add 1 1/4 scoops (40g = 1 serving) of INTENSITY NO-X to 400ml of water and dissolve the powder by stirring vigorously. The easiest way to prepare is in a shaker. Drink 1 serving of INTENSITY NO-X about 30-45 minutes before training. The maximum daily dosage should not exceed 1 serving. INTENSITY NO-X should be consumed exclusively before training. Do not use on non-training days.

Packaging unit: 640g can

Flavors: Blackberry, Watermelon, Orange-Grapefruit.

Content: 640g
