

## Airex Atlas fitness mat red - L200 x W125 x D1.5cm

The AIREX Atlas is the largest mat in our product range. Thanks to its rectangular cut, the AIREX Atlas can be laid seamlessly over large areas. The properties of the material and the thickness of 1.5 cm correspond to the best-selling Corona and Coronella products. It prevents sinking to the floor, even with punctual loading. When used in water, the AIREX Atlas offers optimum support for all conceivable forms of therapy and encourages creative water activities.

**CHF 215.90**

The comfortable Airex Atlas gymnastics mat is characterized by high durability, skin-friendliness and optimum cushioning. The Airex Atlas ensures comfort, optimum protection and precisely controllable movement in every situation. It is non-slip and adapts easily to the surface. It enables safe and comfortable sitting, kneeling and lying, supports movement sequences and offers optimum support.

- CE-compliant (93/42/EEC)
- Target price: 239.90CHF

Size: approx. L200 x W125 x D1.5cm, weight 5.5kg

Color: red

Medical purpose:

AIREX® products are designed as movement therapy aids for both institutional and domestic use. It is used as a support for a person during medically indicated and prescribed exercises to improve motor

skills and balance or postural control and/or for the therapeutic exercise treatment of muscle weakness in the limbs and trunk as a result of a neurological or orthopaedic condition.

Why are the sizes only given in "approx."? All AIREX mats are freely foamed. This means that they are not produced in molds. The production process is comparable to baking bread. The result can therefore be influenced by the ambient conditions (temperature, air pressure, etc.), so that the products always vary slightly in length, width and thickness.
