

Body Solid Club Line - Pro Dual Adduction/Abduction DIOT-SF

The Pro Dual Line strength training equipment from Body Solid is designed for demanding home use and for light institutional use in physiotherapies, hotels, corporate fitness or schools. The Pro Dual Line impresses with an innovative design with oval tube frame and convinces with an attractive price/performance ratio.

CHF 3'590.00

Effective thigh training requires a biomechanically correct machine that keeps the back, butt and knees where they belong to isolate the target area and achieve optimal results.

Body Solid's Pro Dual Inner Thigh/Outer Thigh Machine features a pop-in cam adjustment that allows users to choose their own starting position and range of motion. Four sealed ball bearing systems provide an even focus on the inner thigh and hip.

The biomechanically correct footrests and ergonomically correct angled seat with bent knees prevent strain on the lower back. Users face forward toward the weight stack for easy access. The Pro Dual Inner Thigh/Outer Thigh Machine also features non-slip grips to ensure user stability during workouts.

The Body Solid Pro Dual Inner Thigh/Outer Thigh Machine features an elegantly curved frame made of smooth, electric-coated tubing that has a modern, design-driven aesthetic that combines form and function to create an outstanding modular strength training system.

Features:

- Dual station for adduction and abduction exercises
- large, rotating knee pads
- 9-position adjustable back pad for the correct training position
- non-slip footrests
- high-quality Duraform padding with 5 cm high-density foam for extra durability and training comfort

- side handles
- weight block with 95kg
- cable made of aircraft construction (load capacity up to 1100kg)
- no cable change necessary
- weight magazine with protective cover
- oval tube frame
- powder coated steel frame
- 4-sided welded connections
- ball bearing mounted pivot points
- shock-resistant, fiberglass-reinforced nylon rope pulleys with sealed ball bearings
- color: grey

Usage: Home to light institutional use, Max. User weight 200kg

Unit dimensions: L191cm x W102cm x H158cm, weight 215.7kg

Warranty: 1 year on labor, 2 years on parts (excluding consumables such as pads/cables)
