

Body Solid Club Line - Pro Dual Leg Press/Calves DCLP-SF

The Pro Dual Line strength training equipment from Body Solid is designed for demanding home use and for light institutional use in physiotherapies, hotels, corporate fitness or schools. The Pro Dual Line impresses with an innovative design with oval tube frame and convinces with an attractive price/performance ratio.

CHF 3'690.00

A good leg workout not only strengthens the glutes, quadriceps, hamstrings and calves, but also trains the cardiovascular system and burns fat.

The advanced design of Body Solid's Pro Dual Leg Press/Calf Extension reduces spinal compression while allowing full range of motion in a natural, biomechanically efficient movement. The machine features pillow block bearings and sealed ball bearings for precise alignment and friction-free motion.

The fully adjustable Duraform™ back pad features an ergonomically designed dual-position pressure plate that allows users of any size to perform a complete leg and calf workout.

The Body Solid Pro Dual Leg Press/Calf Extension features an elegantly curved frame made of smooth, electrically coated tubing that has a modern, design-driven aesthetic that combines form and function to create an outstanding modular strength training system.

Features:

- dual station leg and calf press
- adjustable, ergonomic back pad
- high quality Duraform padding with 5 cm thick foam for added durability and workout comfort
- side handles
- large, non-slip foot plate
- weight graduation up to 190kg (ratio 2:1)
- weight block of 95kg
- cable made of aircraft construction (load capacity up to 1100kg)

- no need to change cables
- weight magazine with protective cover
- oval tube frame
- powder coated steel frame
- 4-sided welded connections
- ball bearing mounted pivot points
- shock-resistant, fiberglass-reinforced nylon rope pulleys with sealed ball bearings
