

Body Solid Club Line - Pro Dual Leg Extension/Leg Curl DLEC-SF

The Pro Dual Line strength training equipment from Body Solid is designed for demanding home use and for light institutional use in physiotherapies, hotels, corporate fitness or schools. The Pro Dual Line impresses with an innovative design with oval tube frame and convinces with an attractive price/performance ratio.

CHF 3'490.00

Angle and ergonomics are key to effective, efficient quadriceps training. With a properly adjusted machine, the user can feel the muscles being worked as the exercise is performed.

An elliptical curve provides a smooth motion and offers variable resistance throughout the range of motion. The Duraform™ back pad adjusts to fit any body size and prevents stress on the lower back. The Pro Dual Leg Extension/Leg Curl Machine also features pop-pin adjustable foot pads to ensure proper alignment, while adjustable thigh pads provide stability during workouts. The grab handles provide ultimate stability for a worry-free workout.

The Body Solid Pro Dual Leg Extension/Leg Curl Machine features an elegantly curved frame made of smooth, electric-coated tubing that has a modern, design-driven aesthetic that combines form and function to create an outstanding modular strength training system.

Features:

- Dual station for leg extension and leg curl exercises.
- 12-position adjustable ergonomic back pad for correct training position
- high-quality Duraform padding with 5 cm thick foam for additional durability and training comfort
