

Body Solid Club Line - Shoulder Pressure Station (SSP800)

A machine where form really follows function. Not like a passing trend. Look at the details of the Shoulder Press Machine and you'll see an impressive array of mechanical and ergonomic features. But even more important is the feeling you get when you work out on this machine. Finally, it was designed with the user as the focal point. The multi-adjustable, forward and forward-facing arms relieve pressure on the lower back and provide ultimate wrist comfort. Fully adjustable seat cushion accommodates users of all sizes and full range of motion exercises. Center drive design distributes weight evenly to prevent torsion of resistance arm and frame. The pivot point is located in the center of the exercise movement to ensure a smooth linear motion. This is shoulder training in every sense of the word.

CHF 2'690.00

Features:

- Low center of gravity that maximalises workout stability
- Pivot point is aligned at a level equal to the mid-point of exercise movement
- Anti-slip handle for multiple grip options
- anti-slip footrest
- height adjustable seat
- handles on both sides of the seat
- highly polished, chrome-plated solid steel guide and shift rods
- extra durable, tear-resistant DuraFirm™ upholstery is double stitched
- 95kg weight block (140kg optional)
- fiberglass-reinforced nylon pulleys with V-groove channels
- nylon coated, self-lubricating aircraft grade steel cables
- double powder coating protects against scratches, chipping and flaking
- 5 x 10 cm high tensile steel. All welded on 4 sides
