

## Body Solid Club Line - Back Stretch Station (SBK1600)

The Pro Club Line Back Machine is scientifically designed to help you overcome impossible obstacles. It is a favorite among hospital therapists and is proven to set performance standards for lower back strengthening and rehabilitation.

Body-Solid's uncompromising design is evident upon first inspection. Features include a fully adjustable seat cushion, leg support rollers, a comfortable contoured back pad and a weight stack that is easily accessible from the training position. The pivot point is precisely aligned with the user's hip joint to provide biomechanically correct movement throughout the range of motion. The unique variable resistance curve provides smooth, safe and comfortable isolation of the upright spinal muscles. Adjustable safety harness fits all body sizes and stabilizes the body during flexion movements.

**CHF 2'690.00**
