

## Tunturi cross trainer C85F

The Tunturi Endurance line is the flagship of the new Tunturi cardio equipment. The Tunturi Endurance cross trainers, bikes, treadmills and rowing machines combine the best overall package of versatility, price/performance ratio and quality. The Endurance machines are perfectly designed for ambitious home users as well as for professional use in physiotherapies, clubs and schools. Tunturi Endurance machines have the same user-friendly console, programs and features as the Tunturi Platinum machines, which are designed for commercial gym use.

**CHF 1'799.00**

The Tunturi Performance Crosstrainer C85F is a front-wheel drive crosstrainer with 43 different programs and 58 resistance levels. The control panel has an integrated TFT display and simple menu navigation using a rotary knob. This makes the crosstrainer very easy and intuitive to use.

With the integrated T-Road interface from Tunturi, you can virtually ride through different landscapes. But the potential is far from exhausted! Because this Tunturi cross trainer also has the ability to connect a tablet or smartphone via Bluetooth and thus use the exciting functions and experiences of the Kinomap app. As soon as you do this, completely different possibilities unfold! Create an account and run around the world using Google Maps. Various measurements allow you to keep track of your training and share it with your friends on Facebook or Twitter.

The maximum user weight is 150 kg. In addition to pulse measurement on the handles, a chest strap can also be used as an option. The resistance is electronically controlled and is a maximum of 600 watts.

This cross trainer is front-wheel driven, which requires a little more space, but is more comfortable and ergonomic in terms of movement and also provides a longer stride length.

### **Features:**

- Electromagnetic eddy current brake (EMS induction braking system)

- stride length 48cm
- Flywheel 36kg
- Movable arm bars for upper body training
- TFT color monitor with selection wheel for quick navigation and display of speed, time, distance, RPM, energy consumption, heart rate, power (watts), load profiles
- 58 resistance levels
- Manual training program
- Quick start function
- 10 pre-programmed load profiles
- 1 heart rate program
- 6 watt programs (constant power) (600 watts)
- 20 user programs (users can generate their own load profiles)
- Number of users that can be registered: 10 people
- 10 selectable languages
- User diary
- 1 fitness test: Multi step VO2 Max
- 5 T-Ride programs: Ride through various graphically depicted landscapes. The route profiles require the gears to be used optimally
- 3 T-Road programs: for playing real landscape routes. The films are played on the integrated 10-inch display depending on the speed
- Specifications: Time, distance, calorie consumption
- Adjustable console
- transport wheels
- tablet holder
- hand pulse sensors
- water bottle holder
- motion-dynamic treads
- USB charging station
- Bluetooth compatible
- Color: ivory

Use: home to light institutional use, payload: approx. 150kg

Device dimensions: L199 x W74 x H166cm, weight 82kg

Accessories: hand pulse sensors, integrated Polar receiver

Option: transmitter belt

Warranty: **CH warranty** (warranty from Swiss general distributor) - 1 year full warranty, 2 years on labor and spare parts (excluding consumables)

Brake system: Induction brake system

Flywheel: 36 kg

Current-dependent: Yes

Stride length: 48 cm

Gradient: No

Resistance levels: 58

Training computer: TFT color monitor

Displayed values: Speed, time, distance, RPM, energy consumption, heart rate, power (watts), load

profiles

Training programs: 43

Pulse-controlled programs: 1

User-defined programs: 20

Hand pulse sensors: Yes

Pulse receiver: 5kHz and Bluetooth

Multimedia: Bluetooth interface, USB port, motion dynamic treads, water bottle holder, tablet holder.

Foldable: No

Accessories: Hand pulse sensors, integrated Polar receiver

Options: Bluetooth transmitter belt, floor protection mat

Folding dimensions (length / width / height): No

Dimensions (length / width / height): L 199 x W 74 x H 166 cm

Device weight: 82 kg

Payload: approx. 150 kg

Insert: Home

Warranty: 1 year full warranty, 2 years on labor and spare parts
