

Waterrower protective tarpaulin

The optimum protection for your
Waterrower Classic

CHF 99.90

The WaterRower protective cover can be easily pulled over the WaterRower and closed with a zipper. Your WaterRower is therefore optimally protected from external influences such as dust, rain or high humidity.

The protective cover fits all wooden WaterRower Classic models (except the version with XL rails and HiRise adapter and also does not fit the stainless steel model S1, metal frame M1 high and M1 low and the A1 model)
