

Trampoline Trimilin Fun 30 - garden trampoline

With the garden trampoline Fun 30 from Trimilin the whole family gets in shape playfully.

CHF 539.00

The Fun 30 is quick and easy to set up - the perfect outdoor fun for the garden.

The spring cover of the Trimilin Fun garden trampolines does not simply rest on the edge, as with other garden trampolines. Instead, the padding is firmly attached to the jumping mat. This means that no gap can open up between the mat and the edge when jumping. Feet and hands cannot get caught in the springs.

The extra thick edge padding is water repellent. This guarantees the best cushioning properties in all weather conditions.

Due to the round shape of the Trimilin, the spring tension is greater at the edge than in the middle. So you will always be sprung back to the center of the trampoline.

The trimilin-fun arrives to you in a handy cardboard box. The frame made of galvanized steel tubing is quickly assembled and set up without tools.

The advantages at a glance:

- cushions you softly and is therefore so easy on your joints
- and back friendly
- stimulates circulation and metabolism
- reduces excess fat and lymphatic congestion
- promotes healthy bone and muscle growth
- prevents osteoporosis
- trains coordination and sense of balance

Execution Fun 30:

- 72 springs
- 8 legs
- diameter 300cm
- ground distance 60cm
- Option: Ground anchor set for the large Trimilin-Fun garden trampolines. To securely fix the garden trampoline to the ground.
