

Sissel Intensive Massager

The professional tapping massage for muscle and back tension - the Sissel Intensive Massager is suitable for the treatment of small, short muscle areas. It can be used for intensive tapping massage with 2 anatomically shaped soft rubber ball heads with a rotation speed of 1000 to 3000 times per minute. 95% of the energy goes directly into the muscle tissue, causing optimal muscle loosening and blood circulation. It is suitable for muscle and back tension, tension headaches, for loosening muscles after sports activities or for preparation before massage. Further it can be used for effective cellulite treatment.

CHF 239.00

The deep massage in a new, compact form - the SISSEL Intensive Massager replaces the SISSEL Pro massager, which has proven itself for many years. The new Intensive Massager has been improved again: the new device has a revised motor control, it has a new drive system and a more robust housing with pleasant Haptik. In addition, SISSEL Intensive Massager has received a longer cable, which provides more treatment space. Two different attachments for different treatment methods are included.

- suitable for muscle and back tension, as well as tension complaints - penetrates deep into the muscle, causing optimal loosening and noticeable blood circulation
- optimal loosening of muscles in legs, arms and neck muscles etc.
- does not vibrate like conventional massagers, but taps between 25 and 40 times per second - intensive tapping massage with 2 anatomically shaped ball heads with 1,000-3,000 revolutions/min.
- suitable for small and large muscle areas
- the patented tapping technique causes an optimal loosening and blood circulation of the musculature
- easy to clean
- incl. 2 attachments for different massage effects
- for normal home use - user-friendly and always at hand - at home and on the go
- ergonomic design for maximum comfort
- infinitely variable in 5 intensity ranges
