

APOLLO PRO V COMMERCIAL FLUIDROWER

The FDF Apollo Pro V FluidRower is one of our highest sought after rowers for its performance and beautiful construction from ethically sourced American Ash wood. The wood frame wraps around a robust sculpted steel frame, ensuring product integrity as well as a luxurious modern style.

The Apollo Pro V has 5 levels of adjustable Fluid Resistance provided by our patented Twin Tank system. At level 1, the Fluid Resistance is suitable for beginners, deconditioned participants or rehabilitation patients just starting on their fitness journey. Dial to level 5 for high-intensity interval training [HIIT] or short sprints.

The Apollo Pro V offers silky smooth resistance at any speed and at any level. With a firm instant catch and a consistent resistance through the entire stroke, it provides the closest emulation of on-water rowing, encouraging you at every stroke to do a little more.

The Apollo Pro V boasts a compact footprint and can be stored on its end with ease. It is also compatible with FDF's optional Seat Back Kit for extra lumbar support, and the Elevate Kit for easier on-off access.

ABOUT FDF LIMITED

FDF Limited is the leader in designing and manufacturing a range of adjustable Fluid Resistance fitness machines for commercial and residential applications. At the heart of the fitness range is the unique and patented Twin Tank Fluid Resistance system. The adjustable Fluid Resistance system challenged conventional thinking of how water could work to provide adjustable resistance rather than just a liquid mass flywheel. The patented Twin Tank system provides silky smooth resistance at any speed and is perfect for cardio training, warm-ups, cool downs, intense HIIT workouts or rehabilitation programs. **FDF Limited** categorizes the range of adjustable Fluid Resistance machines under the banners, **FluidRower**, **FluidExercise** and **FluidPowerZone**, see the adjacent web links. **FDF Limited** products are distributed throughout the globe and are popular in Fitness Centers, Hotels and Apartments, Sporting Clubs, Universities, First Responders, Defence Force Training Facilities and Physical Rehabilitation Clinics.
